
Macroeconomic Theory By Ml Jhingan Pdf 88

an important textbook, which discusses various concepts of macroeconomics in detail and easily. The problems of inflation, liquidity, credit, interest rate, money supply, employment and unemployment, trade, the state of the national economy are raised. The author rightly argues that economic growth is not a cause, but a consequence of the general equilibrium, which consists in an equal distribution of income and savings. According to the author, this conclusion does not contradict either classical economic theory or merit economics theory. The book is intended for readers who already have an understanding of macroeconomics. The book can also be used by students of economic specialties of universities in the study of a cycle of macroeconomic disciplines. Economics of the "man-machine" system V. F. Cherkunov. This book will help to understand the abundance and inconsistency of modern economic science. In it, the author proceeds from the need for rational management of the economy, aimed at its rise, at increasing labor productivity, at changing the structure of productive forces and factors of production. The book is the result of many years of research work by the author to develop approaches to ensuring the country's economic security. It can be used as a textbook, a methodological guide for teachers of economic specialties, and can also serve as a reference for specialists. The author of the study, based on the results of research by foreign scientists, talks about the so-called miracles and anomalies of economic theory. The book contains numerous facts from the life of modern Russia, showing its complete failure both in the conditions of market relations and in a period of stagnation. The book is written in simple and accessible language and is designed for the general reader. School of Accounting The book in a popular form sets out the main provisions of the theory of accounting, reveals the essence of the accounting and reporting system.
